

Installation fee

Pursuant to Regulation 45 of the Plumbers Licensing and Plumbing Standards Regulations 2000, **the installation fee is payable in respect of plumbing work for a new building, or an extension to an existing building (where there is a change in the roofline), that will include at least one new sanitary fixture.**

The fee is payable by the licensed plumbing contractor who gives the first, or only, notice of intention in respect of the sanitary plumbing work, at the time of giving the notice. The amount of the fee is set out below.

For the purposes of this regulation, a “fixture” means a receptacle designed to collect and discharge wastewater or other waste into sanitary or drainage plumbing, for example, a basin, water closet, bath, shower, sink, laundry trough, urinal or bidet; or 2 or more such receptacles that discharge through one fixture trap which are to be considered as one fixture. Please note that water heating units, dishwashers and evaporative coolers are not classed as sanitary fixtures.
