## STATEMENT OF COMPLIANCE

HON MICHAEL MISCHIN MLC  
MINISTER FOR COMMERCE

Dear Minister

In accordance with section 16 of the *Occupational Safety and Health Act 1984*, I submit for your information and presentation to Parliament, the Annual Report of the Commission for Occupational Safety and Health for the 12 months ending 30 June 2014.

George Allingame  
Chair  
Commission for Occupational Safety and Health

## REPORT FROM THE CHAIR

As Chair of the Commission for Occupational Safety and Health (the Commission), I am pleased to present its annual report for the year ended 30 June 2014.

The Commission is established under the *Occupational Safety and Health Act 1984* (the OSH Act) and is responsible to the Minister for Commerce. The Commission's functions include providing advice to the Minister on occupational safety and health (OSH) matters and publishing occupational safety and health codes of practice and guidance material.

The harmonisation of work health and safety laws under the auspices of the *Inter-Governmental Agreement for Regulatory and Operational Reform in Occupational Health and Safety* (the WHS IGA) continued to be a major focus for the work of the Commission in 2013-14. In view of the Government's commitment to establishing the regulatory impact of the model regulations in Western Australia, and the finalisation of the mining regulations prior to introducing harmonised legislation, the Commission agreed to extend the operation of its Strategic Plan 2009-12 pending a decision on implementation.

The Commission will continue to monitor developments in the national arena consistent with the Government's commitments under the WHS IGA and will review its strategic objectives to ensure they continue to meet the expectations of Western Australians as the peak body for occupational safety and health matters in this State.

Specifically, the Commission undertook a series of "gap analyses" which compared the existing provisions of the OSH Act with those of the model *Work Health and Safety Act* (WHS Act) in order to assess the impact of introducing changes to safety and health legislation in Western Australia. A number of codes of practice were also reviewed by the Commission and advice provided to the Minister for Commerce.

During the 2013-2014 year the Commission, in accordance with its guidelines and criteria, approved introductory courses for safety and health representatives in response to applications received from Registered Training Organisations.

Two members of the Commission, together with the WorkSafe Western Australia Commissioner and a person nominated by the WorkSafe Inspectorate, formed the judging panel for the annual Work Safety Awards. The award process invites participants in Western Australian workplaces to lodge an entry into one of four categories to achieve recognition in workplace safety and health.

The Commission continued its ongoing consideration of WorkSafe WA statistical data which reports work-related fatalities and regulatory activity, as well as safety alerts issued and posted on the Department of Commerce, WorkSafe Division website.

Specific occupational safety and health issues that were addressed by the Commission during the year included high risk work licence renewals, asbestos in the workplace, noise standards, workplace bullying, electrical standards and the incidence of slips, trips and falls.

In closing, I would like to thank members of the Commission and members of all advisory committees and working parties for their efforts and dedication during the year. Finally, on behalf of the Commission, I would like to acknowledge and thank all WorkSafe officers for their hard work and professionalism over the past year.

Any such information is included in the annual report of the Department of Commerce for 2013/2014.

## **SECTION THREE: REPORT ON 2013-2014**

### **National harmonisation of occupational health and safety legislation**

In July 2008, the Council of Australian Governments formally committed to the harmonisation of work health and safety laws by signing the WHS IGA.

An independent panel reviewed work health and safety laws in each state, territory and the Commonwealth and advised the then Workplace Relations Ministers' Council (WRMC – subsequently the now abolished Select Council on Workplace Relations) on the optimum structure and content of a work health and safety Act that can be adopted in all jurisdictions.

The model Work Health and Safety Act (the model WHS Act) was endorsed by the WRMC on 11 December 2009. After being released for a public comment period ending in April 2011, the model Work Health and Safety Regulations (the model WHS regulations) were redrafted by Safe Work Australia and presented for approval to the Select Council on Workplace Relations (SCWR, formerly the WRMC) on 10 August 2011.

In 2012, the Western Australian Government committed to the preparation of a regulatory impact statement (RIS) for the model WHS regulations. Commission members provided submissions through their organisations during the public comment period, and the Commission continues to monitor the progress of the RIS.

Safe Work Australia (SWA) continued to release model Work Health and Safety codes of practice (model WHS codes) during 2012-13 and 2013-14. The Commission has continued to review the model WHS codes for their application to safety and health in Western Australia. A particular focus of these discussions has been to ensure that important areas of regulation in Western Australia are adequately covered in the model WHS codes when no similar regulation exists in the model WHS regulations.

### **Safe Work October 2013**

In 2013 WorkSafe Western Australia, with the support of the Commission, continued with its annual month long focus on workplace safety and health – Safe Work October 2013. This month long focus has now been mirrored by Safe Work Australia and other jurisdictions, moving away from their previous week-long events. The month featured a number of activities, the most significant of which being a series of targeted workshops, and culminated with the presentation of the Work Safety Awards 2013.

The workshops in 2013 were smaller in size and more numerous than 2012, allowing participants greater access to the presenters. Workshops were once again conducted at Technology Park in Bentley 728 attendees across the 17 events. The attendees were a mix of elected safety and health representatives, general management, and safety and health professionals. The key objective of these workshops was to provide hands-on information and skills experiences. They also provided the OSH community with networking opportunities.

The workshop series featured a range of speakers with a wealth of knowledge and expertise in OSH. The program featured a mixture of sessions including topics such as *Enhancing safety meetings and briefings*, *Building a mentally healthy workplace*, *Managing your fatigue* and *Hazardous substances*, amongst others.

Two Commission members contributed as judges for the Work Safety Awards 2013, which were presented at a very well attended breakfast event at end of safe Work October 2013.

### **Commission accredited introductory training courses for safety and health representatives**

Under section 14(1)(h) of the OSH Act, the Commission may accredit training courses in OSH. Details of the accreditation process for introductory courses for safety and health representatives is provided in the publication *Guidelines and criteria for accreditation of introductory training courses for safety and health representatives* (the accreditation guidelines), which is available from WorkSafe's website, [www.worksafe.wa.gov.au](http://www.worksafe.wa.gov.au).

The organisations providing Commission-accredited training courses for safety and health representatives are listed on WorkSafe's website. An annual report of participation in training courses for safety and health representatives will be published later in the year on the website.

### **Publications**

The Commission has continued to review model WHS codes released by SWA during 2013-14. This included areas presently regulated in Western Australia under the Occupational Safety and Health Regulations 1996 (the OSH regulations) which have no specific regulations under the model WHS regulations.

## Changes to legislation

The following amendments were made to the OSH regulations during 2013/2014.

WRITTEN LAW	GAZETTAL DATE
Occupational Safety and Health Amendment Regulations (No.4) 2013  Amended the time period a licence holder may apply for a licence renewal after the licence has expired	21 January 2014

## The National Arena

During the 2013-2014 year, a number of issues which were the subject of discussion in the national arena were addressed by the Commission.
