### Carrying cable drums

Before applying a new risk control, review its use to ensure it does not introduce new risks during the tasks.

- Store cable drums in vehicle to ensure easy access.
- Know the weight of the drum.
- Consider placing the small cable drums in tubs for easier handling.
- Carry only one cable drum at a time.
- For larger cable drums have two people lift and carry when mechanical assistance is not available.
- Ensure good housekeeping and that the path is free of obstructions when carrying cable drums.
- When possible roll the drum.
