

Request to submit a late application for renewal

Form 68

Use of this form

This form is for building service providers whose registrations have expired and are seeking to submit a late application for renewal.

A late application for renewal can only be accepted within six (6) months after the expiry date of a registration if the Building Services Board (the Board) is satisfied the delay was caused by reasons beyond your control or other special circumstances warrant acceptance of the application.

You are required to complete this form to explain why the delay was caused by reasons beyond your control or outline other special circumstances warrant acceptance of the application.

In addition to this form, you are required to submit a completed renewal application form and provide payment of the late fee and application fee.

Request for late application is accepted

If the Board is satisfied with your reasons or considers there are other special circumstances that warrant acceptance of a late application, it will accept a renewal application made within six (6) months after the expiry date of a registration.

Request for late application is not accepted

If the Board is not satisfied with your reasons or determines there are no special circumstances that warrant acceptance of a late renewal application, you will not be able to renew your registration.

If you were previously registered as a building service practitioner you can:

- apply for the reissue of your registration if it has been less than three (3) years since your registration expired; or
- apply for a new registration if it has been more than three years since your registration expired.

If you were previously registered as a building service contractor you will be required to apply for a new registration.
