

## Important points about LP Gas cylinders

1. Regulations require LP Gas cylinders **to be inspected and tested every 10 years.**
2. Filling damaged or out-of-test date cylinders **is illegal and can be dangerous.**
3. LP Gas cylinders out-of-test date **must not be filled until tested and restamped** by an approved gas cylinder test station.
4. The approved gas cylinder test station scheme is operated by **STANDARDS AUSTRALIA** (AS 2337 Gas cylinder test stations).

**A LIST OF APPROVED GAS CYLINDER TEST STATIONS IS PROVIDED OVER THE PAGE.**

### LP GAS CYLINDER INFORMATION

To determine the **LAST TEST DATE** of any LP Gas cylinder, simply refer to the information stamped on the cylinder foot ring or the valve protection collar. Automotive LP Gas cylinders may have a data plate or tag attached to the cylinder.

#### Important information recorded on the LP Gas cylinder foot ring, valve collar or data plate includes:

- **ABC** ..... Owner's Name (Optional)
- **NO. PCI-94-068066** ..... Owner's Serial No. (Optional)
- **AS 2470-1989**..... Manufacturing Standard
- **WA 11714**..... Statutory Approval Number
- **WC 21.6 Kg/21.6Litres** .... Design Water Capacity (May be shown in kilograms and/or litres)
- **TP 3.3 Mpa** ..... Test Pressure
- **TESTED 12 1995**..... **LAST TEST DATE - If more than one date, the most recent date applies**
- **TARE 9.65 Kg** ..... Mass Weight
- **MADE IN AUSTRALIA** ..... Country of Origin
- **STAMPED SYMBOL(S)** ... Unique Test Station Mark(s)
- **1,2,3 OR 4** ..... Surface Coating Identification Mark

**NOTE:** There may be variations in the presentation of the information or the information provided but the **LATEST TEST DATE will always be stamped and must be legible.** Test station certification stamping changed in January 2003 to: a cylinder symbol and station ID number.

eg            Pre January 2003            New stamp January 2003
