

# Narrowing the digital divide in regional Western Australia

## Regional Telecommunications Project (RTP)

The Western Australian Government's Royalties for Regions is investing a further \$45 million to improve telecommunications services across the State.

# How will the RTP benefit you and your community?

## RTP will:

- Deliver a significant reduction in mobile telephone and data coverage gaps in small communities and strategic locations.
- Enhance safety and convenience for people living, learning, visiting and working in regional Western Australia.
- Increase access to mobile voice and high speed data services.
- Broaden commercial opportunities for local businesses.
- Support sustained regional development.
