

Comments on the *Work Health and Safety Bill 2014*

Clause (section) of the Model WHS bill	Comment
17(2)	The term 'matter' may benefit from greater clarity. Does 'matter' refer to the risk, a work practice or other?
Part 7	Part 7: Entry of WHS permit holders We support the removal of powers of permit holders, outside of the inspectorate, to enter a workplace and issue notices so long as there is an appropriately funded inspectorate which can undertake this important enforcement function.
Part 11	Part 11: Enforceable undertakings We strongly support the retention of enforceable undertakings as an alternative to prosecution.
