

# WHS MSPP guide for candidates

## Downloading a statutory certificate or record of examination

After you have completed all the requirements for the statutory learning pathway, you can download your statutory certificate for a certificated statutory position or the record of examination for a non-certificated statutory position.

Log into your account using the Mining Statutory Positions Portal. On the homepage, click on your chosen learning path under *My completed applications*.

Within the learning path, click on Download document on the right hand side near the icon to download your statutory certificate or record of examination.
